**RESEARCH POWERED SOLUTIONS**

**AN EMPLOYEE-OWNED COMPANY**

## TECHNOLOGY FOR THE FUTURE, AVAILABLE TODAY!

EvapTech™ is a premier cooling tower designer, manufacturer and contractor providing Innovative Cooling Solutions for the satisfaction of customer needs in the power generation, industrial, refrigeration and HVAC evaporative cooling markets.

EvapTech offers new and replacement field erected cooling towers and a variety of field erected cooling tower after market services.

EvapTech is a wholly owned subsidiary of EVAPCO, Inc. The creation of EvapTech, Inc. positions EVAPCO, Inc. as the only true full line manufacturer of evaporative cooling equipment capable of satisfying all markets.

Since its founding in 1976, EVAPCO has become an industry leader in the engineering and manufacturing of quality heat transfer products around the world.

EVAPCO's powerful combination of financial strength and technical expertise has established the company as a recognized manufacturer of market-leading products on a worldwide basis.

EVAPCO is an employee owned company with a strong emphasis on research and development and modern manufacturing plants. With an ongoing commitment to research and development programs.

EVAPCO provides the most advanced products and components in the industry.

EvapTech's products and thermal components are created and validated in the Wilson E. Bradley Research & Development Center.

The Research & Development Center, located at EVAPCO's World Headquarters in Taneytown, Maryland USA, has over 63,600 square feet of laboratory space making it the largest of its kind in the world.

The R&D Center is dedicated to industry leading product development efforts by utilizing state of the art thermal, hydraulic, material analysis equipment, methods and techniques.

Experienced R&D engineers perform product and application research year round in six environmental test chambers.

The Research & Development Center features customized laboratories that are designed to conduct tests through a wide range of environmental conditions. The computerized data acquisition system records the data and graphically displays continuous results, thereby providing the R & D engineers with valuable test information on a continuous basis.

EvapTech products are the result of extensive research and thermal testing. As a result, EvapTech products deliver guaranteed performance in order to maximize system performance.
