

EvapTech Facts

EvapTech (www.evaptech.com) is a premier designer, manufacturer, and contractor providing **Innovative Cooling Solutions** for the needs of customers in the power, industrial, and large HVAC evaporative cooling markets.

EvapTech is a wholly owned subsidiary of Evapco, Inc. (www.evapco.com) which is an employee owned manufacturing company with global resources and solutions for worldwide heat transfer applications. Evapco is dedicated to designing and manufacturing a variety of the highest quality products for the evaporative cooling and industrial refrigeration markets around the globe.

EvapTech offers a broad range of innovative solutions to cooling equipment owners and operators including:

- S All varieties of new and replacement field erected cooling towers** – counterflow, crossflow, fiberglass, treated wood, film fill, splash fill, low sound, low drift, and plume abatement in custom and pre-engineered designs.
- S After market services for all types of field erected mechanical draft cooling towers** – work scopes involving structures, mechanical equipment, and improvement of water distribution, fill, and eliminator systems targeting safe and reliable operation and thermal performance improvements. Services also include physical equipment inspections and thermal performance evaluations.
- S Reconstruction of counterflow and crossflow natural draft cooling towers** – component and system replacements including water distribution, fill, and eliminators targeting safe and reliable operation and thermal performance improvements.
- S Parts and components supply** – fans, fan cylinders, gear boxes, drive shafts, equipment supports, nozzles, and other parts and components for all brands and types of towers.

Take comfort in EvapTech's qualifications based on these values and capabilities:

1. **EvapTech is devoted to customer satisfaction** – EvapTech's Team is committed to assisting customers to achieve success by any measure in their business operations.
2. **EvapTech provides innovative designs with integrity** – EvapTech's Team has the experience and know-how to select the most effective and economic combination of materials and then formulate them into an engineered solution for your cooling equipment need. *Our solutions provide accurate thermal performance, reliable operation, and a useful service life.*
3. **EvapTech's project execution is exceptional** – EvapTech's project managers are vigilant about materials supply, logistics, schedules, and project budgets. Our team relies upon experienced field superintendents and qualified subcontractors to assure field work is performed safely and in compliance with customer and EvapTech requirements.
4. **EvapTech is financially solid** – EvapTech has the resources to bond and finance its projects, pay suppliers and vendors in a timely manner while meeting field payrolls and other financial obligations, and honor its warranty obligations.
